TAMKHANE GANESH SURYAKANT

ASPIRING SOFTWARE DEVELOPER | MCA CANDIDATE

CAREER SUMMARY

Motivated Aspiring Software Developer currently pursuing an MCA with a strong foundation in Computer Science (B.Sc). Proficient in full-stack web development (HTML, CSS, JavaScript, PHP, Python - Flask/Django) and database management (MySQL, PostgreSQL). Proven ability to design and implement practical software solutions through diverse project experience.

EXPERIENCE & INTERNSHIP

Web Development Intern — Geeks Kepler (Unstop)

2026

- Designed and developed responsive, user-friendly websites using standard HTML, CSS, and JavaScript.
- Optimized page load times and improved UI/UX for specific client projects.
- Collaborated with team members to test and debug front-end code.

FEATURED PROJECTS

AI Study Ecosystem (AI-Based Notes Generation System)

Technologies: Python (Flask), MySQL, NLP, PDF Processing, Text Summarization

- Engineered a Python-based Flask web application to automatically extract content from uploaded PDF documents.
- Utilized NLP and text summarization to generate concise, well-structured study notes, saving significant time for students.
- Integrated export functionality for notes in downloadable PDF format.

Online Voting Management System

Technologies: PHP, MySQL, HTML5, CSS3, Bootstrap, XAMPP Server

- Developed a responsive web application facilitating secure and accessible online voting.
- Designed a normalized relational database (MySQL) to manage voter and election data accurately.

Attendance Management System

Technologies: Core Java, MySQL, HTML, CSS

- Created a desktop application for educational institutions to track daily attendance for teachers and students.
- Developed a relational database (MySQL) for efficient student and teacher records management.

EDUCATION

Master of Computer Applications (MCA) | G.S. Mandal's MIT, CSN

2025 – 2027

Bachelor of Science (B.Sc) | SRTM University, Nanded

2020 – 2025 (CGPA: 7.54)

HSC — Nutan Mahavidyalaya, Selu (54.92%)

2020

SSC — Nutan Vidyalaya, Selu (71.00%)

2018

ACHIEVEMENTS & CERTIFICATIONS

- Quadcopter Workshop:** Organized by IIT Bombay (Techfest) — learned drone dynamics, aerodynamics, and structural model design (2023).
- Marathon Event:** Organized by MIT-CSN (IETE Student Forum), Department of Electronics & Computer Engineering (2025).
